Arabica Papua Black Gold coffee, Jayawijaya district, central mountains, Bripi District We use 4 post-harvest management methods for green been managed by Papuan Black Gold coffee farmers.

1. Semi wash process
2. Full washed process
3. Honey process
4. Natural processes.

Why Papua Black Gold coffee farmers use 4 ways of managing coffee because every coffee connoisseur/coffee lover and coffee drinker has different preferences because each process has a unique and different taste. Papuan Black Gold coffee farmers, always provide one type of Arabica coffee with 4 different management methods for buyers, so that they are young, packed according to the order and then shipped.

**Traditional drying place for Arabica coffee (Papua Black Gold coffee)  
Bripi District, Jayawijaya Regency (Onggabaga Village)**

Coffee roasted by manual/traditional fire tastes different and has a very strong and sharp aroma. Coffee management process with natural process.
